Böttcherin 6004

Cleaning Agent for Rollers and Blankets

Application

Cleaning agent for cleaning printing blankets and rollers. Particularly suitable for automatic roller and blanket cleaning units in sheet-fed printing.

Features

- based on aliphatic hydrocarbons
- flash point > 62 °C
- water miscible, free of aromatics, corrosion inhibited
- increased cleaning effect
- due to highly effective emulsifying system, increased wetting of the surfaces
- to be removed with water, leaving no residue
- no droplet formation at the tail edge of the plate
- slow evaporation
- very good draining behaviour in the pipes and reservoirs of blanket washing units
- therefore enlarged cleaning intervals of the washing unit

Note

We recommend setting the washing system to optimise the cleaning cycle and Böttcherin 6004 performance. In case of manual cleaning, use Böttcherin 6004 undiluted or mixed with water. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instruct-tions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions. Böttcherin 6004 is approved by Heidelberg, manroland and Koenig & Bauer for use in their machines.
