

BöttcherPro CP Oil

Anti-corrosion oil for printing presses

To use on galvanized impression cylinder as on galvanized plate and blanket cylinder. For the protection of the metal surface against corrosion.

application

-
- Effective even at very low film thickness
 - Very high corrosion protection for all ferrous and non-ferrous metals, such as nickel, copper, aluminum, brass and bronze
 - Free of aromatic compounds
 - The oil which has a very low viscosity shows a good creep behavior
 - Good lubricant properties
 - Very good protection against hand-sweat corrosion
 - Water-repellant

properties

Apply undiluted before every plate or blanket change undiluted on the cylinder surface.

Do not clean with water afterwards.

If after the application of the BöttcherPro CP Oil the cylinder surface will be laminated with a base foil apply the BöttcherPro CP Oil on the surface and leave it to work for 30 minutes. After that wipe it off with a dry rag.

Note

Please wear protective gloves during the use of the product.

-  20 liter can
-  200 liter drum
