

Böttcherin EG-60

De-Glazer

Böttcherin EG-60 is a special wash for deglazing blankets and rollers. Applied manually, Böttcherin EG-60 removes even solid, deep ink residues.

Application

- high ink dissolving performance
- cleans pores of blanket and roller surface
- removes glazing of printing blankets and rollers
- extends the cleaning periods and shortens lead times
- reduced consumption due to slow evaporation
- flash point > 62 °C
- free of aromatics
- short-time water miscible

Features

Böttcherin EG-60 should be applied to a cleaning rag and then wiped intensively over the blanket surface. The blanket should then be rinsed with water.

For cleaning the roller Böttcherin EG-60 should be applied to the roller with the machine running slowly. The roller should then be rinsed with water. Repeat, if residues are considerable.

Note

Wear protective gloves during application.

Böttcherin EG-60 is approved by the manufacturer Heidelberg for use in their machines.

- 10 litre can
- 20 litre can
- 200 litre drum

Package

Böttcherin EG-60 is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Böttcherin EG-60 is not a dangerous good in the sense of national and international transport regulations.
