

# BöttcherPro Febolube-C

## Roller Protecting Paste

BöttcherPro Febolube-C is a lubricant for dry running rollers on non printing ink-units

It will also over time gently deep clean and rejuvenate conventional rubber compound rollers (not yet suitable for EPDM rubber).

Easy and fast application: Just apply a small amount on the rollers and run the press.

Febolube-C is quick and easy to clean off the rollers.

*application*

- 🌍 Prevents higher abrasion and overheating of inking roller surface
- 🌍 Deep cleans inking rollers (not a replacement for Feboclean or BöttcherPro Cleanfix)
- 🌍 Will not harm plates and blankets
- 🌍 Quick and easy to clean off
- 🌍 Works with conventional and mixed mode rubber rollers like Chameleon  
(not compatible with EPDM)
- 🌍 Non-caustic, non toxic and non flammable

*characteristics*

- 🌍 12 cans of 950g / 2.1lbs per box (article code 806969)
