## Böttcher GoldenPearl

Distributor roller with special coating for conventional, mixed mode and UV printing

-  Ink form roller with hard cover
-  Alternative for Rilsan
-  Low-migration printing
-  Packaging

*Application*

-  Good resistance to all conventional offset inks
-  For rapid colour changes
-  Easy-to-Clean surface
-  Quick-acting inking unit
-  Good thermal conductivity for optimum temperature control

*Features*

-  Use in combination with ProColora inking rollers or standard inking rollers

*Note*

-  Very good, even ink transfer
-  Stable print process
-  No migration
-  Reduced expenditure for roller setting
-  More constant temperature in inking unit

*Advantages*
