

Manual Pumps for Drums

**Suitable for all Böttcher Printing Chemicals
(Flash Point 21 – 100°C) and Böttcherin IPA**

Part number: 801631 including hose set, black conductive hose 1.5 m

DN 19 x 4 with outlet bend AK 20

- capacity ca. 0.1 l/stroke
- single-acting
- suction tube for diving depth 935 mm
- drum thread G2"
- with siphon effect

alternatively for aqueous media:

Part number 806132 with suction tube from plastics

Part number: 801480 including hose set, conductive, 1.5 m

DN 19 x 4 with outlet bend AK 20 and

buckling protection spring

- capacity ca. 0.25 l/stroke
- single-acting

suction tube for diving depth 840 m drum thread M 64 x 4 and G2"
