

# BöttcherPro Protecto

## Roller Protecting Oil

Roller protecting oil, to be used against dry running rollers in non-printing units. Particularly useful for lubricating dry running rollers on web areas when printing part or narrow webs.

*Application*

- prevents dry running of the inking rollers
- prevents higher abrasion and overheating of the roller surface
- prolongs roller life by preventing premature roller breakdown
- remains a long time on the roller surface after application
- poor misting or spraying
- good compatibility with rubber roller coverings
- VOC-free
- will not damage the printing plate

*Features*

BöttcherPro Protecto is applied by a wash bottle evenly onto non printing parts of the ink rollers. It may also be added during printing at running machine, if the roller is accessible.

Spray bottle, spray nozzle as well as extension pipe may be ordered separately.

If printed with part web in newspaper printing, BöttcherPro Protecto should be added again after 30,000 turn arounds.

*Note*

 1 litre bottle

*Package*

BöttcherPro Protecto is classified and marked in accordance with EC-Directive 1999/45/EC - in its latest version. BöttcherPro Protecto is not a dangerous good in the sense of national and international transport regulations.

*Marking*
