

Böttcherin Puridamp

Dampening Roller Cleaner

Böttcherin Puridamp is a water based alkaline cleaning agent for dampening rollers.

Application

- Alternative to common fast evaporating and highly flammable cleaning agents
- Meets the requirements of the Blue Angel Eco Label
- Remove ink built up on dampening rollers with pre-soaked cleaning rag
- Ink will be dissolved very easily and absorbed completely from the cleaning rag
- Cleaning without big effort, very good gliding behaviour
- During cleaning formation of a closed water film on dampening rollers
- Suitable for all roller compounds
- Suitable for coated dampening rollers, avoid longer application time and clean with water afterwards
- Small residues of Böttcherin Puridamp in the fountain have no negative effect on printing
- Suitable for conventional-, UV-, HUV- and LED-UV inks
- Suitable for metallic and special inks
- Attacks non-baked positive plates

Features

Böttcherin Puridamp will be applied with a pre-soaked cleaning rag on the slowly running dampening roller. Clean with water afterwards if the pan roller does not run in the fountain solution. Wear protective gloves during the application.

Note

- 1 litre plastic bottle
- 10 liter one way can
