

Feboclean UV

Wash for Roller and Blanket in UV

It is suitable for both manual cleaning and use in automatic washing systems (brush rollers), if printed together with UV inks.

Application

- flash point > 62 °C
- completely water miscible, free of aromatics
- slow evaporation
- good chemical compatibility with UV resistant rubber rollers and blankets
- not suitable for conventional roller qualities
- attacks non baked positive plates

Features

We recommend setting the washing system to optimise the cleaning cycle and Feboclean UV performance. In case of manual cleaning, use Feboclean UV undiluted. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

Note

Feboclean UV is approved by the manufacturers Heidelberg and manroland for use in their machines.

-  20 litre can
-  200 litre drum

Package

Feboclean UV is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. Feboclean UV is not a dangerous good in the sense of national and international transport regulations.
