

VitaWash UV-S

Wash for Roller and Blankets in UV

Cleaning agent for cleaning printing blankets and rollers in sheet-fed presses. Applicable especially in food packaging printing. Particularly suitable for use in automatic roller and blanket washing units in sheet-fed printing.

Application

- 🌈 flash point > 62 °C
- 🌈 completely water miscible, free of aromatics, corrosion inhibited
- 🌈 high wash quality
- 🌈 slow evaporation
- 🌈 designed for use in automatic washing systems (cleaning web systems)
- 🌈 not suitable for conventional roller qualities
- 🌈 attacks non baked positive plates
- 🌈 good chemical compatibility with UV resistant printing rollers and blankets

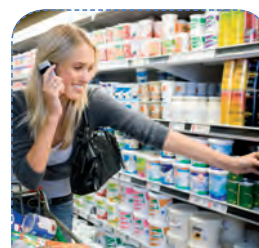

Features

We recommend setting the washing system to optimise the cleaning cycle and VitaWash-UV S performance.

VitaWash-UV S is approved by the manufacturers Heidelberg, manroland, Koenig-Bauer, Baldwin and Technotrans for use in their machines.

It is certificated by ISEGA, intended use provided, VitaWash-UV S is therefore appropriate for the application in the food packaging printing.

Note

- 20 litre can
- 200 litre barrel
- 1000 litre container

Package

VitaWash-UV S is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version. VitaWash-UV S is not a dangerous good in the sense of national and international transport regulations.
