

VitaWash non VOC

Cleaning Agent for Rollers and Blankets

Cleaning agent for cleaning printing blankets and rollers in sheet-fed presses. Particularly suitable for use in automatic roller and blanket washing units. Applicable especially in food packaging printing.

Application

- | | |
|---|--|
|  based on aliphatic hydrocarbons |  low viscosity, no slipping of ink rollers |
|  flash point > 105 °C |  compatible to materials in the press |
|  water miscible, free of aromatics, corrosion inhibited |  VOC free (according to VOC guidelines of Switzerland as well) |
|  very good cleaning power |  no build-up of drops or stripes on blanket and roller |
|  very slow evaporation | |
|  spontaneously emulsifying with water | |

Features

Because of slow evaporation, we recommend setting the washing system to optimize the cleaning cycle and VitaWash non VOC performance. In case of manual cleaning, use VitaWash non VOC undiluted. Apply the wash to the blanket or roller, then finally rinse with water until all ink and cleaning agent residues have been removed.

Follow the automatic washing system manufacturers' operating instructions. If manual cleaning with a hand rag, wear protective gloves during application, follow all press safety instructions.

VitaWash non VOC is approved by the manufacturers Heidelberg, manroland, Koenig & Bauer and Baldwin for use in their machines.

It is approved by the ISEGA, intended use provided, VitaWash non VOC is therefore appropriate for the application in the food packaging printing.

Note

- 20 litre can
- 200 litre barrel
- 1000 litre container

Package

VitaWash non VOC is classified and marked in accordance with EC - Directive 1999/45/EC - in its latest version.

VitaWash non VOC is not a dangerous good in the sense of national and international transport regulations.
